

SERVICES WE OFFER

We offer a range of design services for residential and commercial projects of all sizes and scopes. Whether your project is remote or local, we'd love to work with you. Choose from a simple paint consultation to a full renovation or new build. Make your home or business truly yours with the help of Kylie Ann and her team.

Based on the level of design you choose, we offer:

- mood boards
- design decks
- full product specification
- renderings
- plans
- elevations

Kylie Ann
DESIGN STUDIO

1. SCHEDULE A CONSULTATION

At your first consultation with Kylie Ann, we will establish your goals for project and get a sense who you are and what your style is. From there, we'll discuss budget and scope, and we will schedule a timeline for how to move forward.

2. MOOD BOARDS

Mood boards will be used throughout the design process, no matter what size your project is. Mood boards will be a collaborative effort between client and designer to make sure we're on the same page. They can be used to see how materials will look together, assess style goals, visualize your choices in your space, and more.

3. EXECUTION

When you are satisfied with the direction we are heading, our team will hand off the specifications and other relevant documents to you so you may bring the project to life. Alternatively, our team can work with experienced contractors and other professionals in our field to realize your design.
